- Ownership Renounced
- No Mint Function
- No Blacklist / Whitelist
- No Hidden Functions
- No Honeypot (Buy/Sell Verified)
- Token Transfer Works Normally
- Low Buy/Sell Fees (<5%)
- Token Sell Simulation Successful
- Token Purchase Simulation Successful

Audit Summary

Security Score: 98.5 / 100 (Optimized Review)
External Audit Score: 86.34 / 100 (SolidityScan)

Breakdown:

- 0 Critical Issues
- 0 High Issues
- 0 Medium Issues
- Only minor informational & gas optimizations

Audit Notes

SPDGBASE smart contract has been tested through automated simulations and internal optimization review. The contract processes buys, sells, and transfers successfully, shows no honeypot behavior, and contains no malicious logic.

Minor findings relate only to code comments, gas optimization, and best practices. These do not impact security or functionality.
